

GDPR and Data Protection policy

Author	C Czepukojc
Date	June 2018
Version	1
Approved Date	12.7.18
Review Date	June 2019

Purpose

- 1 This policy sets out how all staff and governors at Alderbrook School ('the School') should ensure that all forms of personal information are dealt with correctly and securely and in accordance with relevant Data Protection law ('the Law'), including the General Data Protection Regulations (GDPR), as well as related UK Data Protection legislation.
- 2 This policy should be read in conjunction with the Freedom of Information Scheme Policy
- 3 Any deliberate breach of this Policy will be regarded as a disciplinary matter and may be dealt with through Alderbrook School's Disciplinary Policy.

Data Protection Law

- 4 The GDPR provides a framework for how organisations use personal information. It protects and enforces the privacy of personal information whilst also allowing for the lawful and appropriate use of this type of information about students, staff, parents and others who have contact with the School.
- 5 The Law applies to many types of organisation processing personal information, including Schools. It covers all personal information regardless of its format or the way it is collected, used, recorded, updated, stored and destroyed.
- 6 Personal information relates to an individual who can be identified by that information or along with other information likely to come into a person's possession. The School acknowledges that the definition also covers opinions about an individual, information regarding the intentions of the school towards them, and more sensitive 'Special Categories' of information. These include information about a person's race, ethnic origin, political opinion, religious and philosophical beliefs, trade union membership, genetics and biometrics, their health, sex life and sexual orientation.
- 7 The GDPR is underpinned by a set of six straightforward principles; the School is committed to following these principles as set out in this policy.

Processed Lawfully, Fairly and Transparently

- 8 The School will inform students, staff, parents and any other person about why they need their personal information, how it will be used, with whom it may be shared and anything else required. This will be done via clear and easy to understand statements on forms and Fair Processing Notice documents issued when collecting information or as soon as possible afterwards; they will also be published on the School website where relevant.
- 9 For most personal information the School's lawful basis for processing it is our requirement to comply with a legal obligation.
- 10 Where necessary, the School will conduct Privacy Impact Assessments to ensure the processing of information by the school does not pose a risk to the rights and freedoms of students, staff, parents and any other data subjects.

Collected for Specified, Explicit and Legitimate Purposes

- 11 Personal information collected and held for the purposes we have stated will not be used for any other purpose without first informing the individuals concerned.
- 12 In accordance with UK law the School is registered as a Data Controller with the Information Commissioner's Office and will renew this annually.

Adequate, Relevant and Necessary

- 13 The School will only collect and store personal information that is sufficient for the purpose we have stated and will not ask for more information than is necessary.
- 14 The School will regularly review its forms and will check personal information already held for missing, irrelevant or seemingly excessive information.

Accuracy

- 15 Information held by the School will be as accurate and up to date as is reasonably possible and steps will be taken to regularly check the accuracy of personal information held; an example is the annual data collection form issued to all parents to check details are up-to-date.
- 16 If a student, member of staff, a parent or any other person informs the School of a change of circumstances or an error in their personal information it will be reviewed and updated as soon as is practicable.

Retention of Information

- 17 The School will not keep personal information for longer than is necessary for the stated purpose(s). This will be determined by
 - the current and future value of the information;
 - the costs, risks and liabilities associated with retaining the information; and
 - the ease or difficult of making sure it remains accurate and up to date."
- 18 The surrounding circumstances may also dictate for how long data is retained. An example would be that if a relationship between the school and a person ends, the school will consider whether it needs to retain the information once the relationship ends.
- 19 Any legal or regulatory requirements may also have a bearing, for example regarding income tax, audit purposes or health and safety issues. (<https://ico.org.uk/for-organisations/guide-to-data-protection/principle-5-retention/>)
- 20 The School will ensure that all personal information deleted or physically destroyed is done in a secure and confidential way.

Access

- 21 The School acknowledges that the Law gives specific rights to any person whose details are processed by the School, and will ensure these rights can be exercised where relevant. Under GDPR these are the right to be informed; the right of access; the right to rectification; the right to erasure; the right to restrict processing; the right to data portability; the right to object; rights in relation to automated decision making and profiling

- 22 These rights include the right to access information held about them. The School will ensure clear procedures are in place to allow for this and will supply the information sought within the required timescale of one calendar month from date of written request.
- 23 Where a student is under the age of 13 years old or it is clear a student does not understand the nature of data protection, a written request from parents/carers in respect of their own child will be processed as requests made on behalf of the child and the copy will be supplied to the parents/carers.
- 24 The right to access information held about them applies equally to staff and any other individuals for whom the school holds information about.
- 25 Any third party information (information about someone other than the requesting individual) found will generally be removed or redacted unless third party permission to disclose is provided or it is reasonable in all circumstances to disclose it.

Appropriate Security

- 26 To prevent unauthorised or unlawful processing and to protect against accidental loss, destruction or damage to personal information, the School will ensure adequate security measures are in place to safeguard all personal information whether held in paper files, on a computer system, laptop/tablet or on portable media storage devices such as USB Memory Sticks, CDs or external hard drives.
- 27 Paper records and portable devices are locked away when not in use and are only accessed by those authorised to see the information held on them. Personal information held electronically is kept securely, is protected by passwords, and is only accessed by those authorised to see the information held.
- 28 Where it is necessary to store or transport personal information on a portable device such as a laptop/tablet or other storage device the relevant equipment or portable media will always be encrypted.
- 29 The School will ensure that staff are aware of the additional precautions they should take when taking personal information, in any format, outside of school for training, meetings or to work from home, such as only taking what is needed, protecting it in transit, never leaving it unattended and storing it securely.
- 30 Particular care will be taken by all staff when sending personal information via emails, faxes and letters, etc. to use secure methods where necessary and to confirm addresses/numbers beforehand.
- 31 The School will undertake a regular review of measures in place to protect personal information taking into consideration developments in technology and ensuring staff receive up to date training and guidance.

Using Data Processors

- 32 The School will ensure that any third parties who process personal information on the School's behalf will do so under strict written instruction that is binding on the third party, who will also have adequate safeguards in place to protect the information.
- 33 Records of checks of adequate security and the written instruction will be maintained by the School for reference and regular review

Transfers outside of Europe

- 34 Data Protection law applies to all member states within the EU and the UK. The School will rarely need to transfer any personal information outside of the UK and the EU. However, if this is necessary, checks will be made to ensure an adequate level of protection for that information and consent will be sought from those affected if necessary.

School Specific Issues

Consent

- 35 The School will seek consent/parental consent to use certain types of personal information where appropriate. Examples of when the School will seek consent include using photographs or recordings of children in school for school projects or for display; using photographs of children, staff and parents in school publications such as newsletters; using photographs of children, staff and parents in external publications such as a local newspaper; using photographs/recordings of children, staff and parents to be on any web page or social media site.
- 36 When seeking consent the School will provide a clear explanation of the use of the information and will ask for a positive written indication of consent for each different use. Consent will not be inferred from a non-response to a communication, for example from a parent's failure to return or respond to a letter.

CCTV

- 37 The School uses CCTV for security and safety purposes. CCTV footage will feature personal information; therefore the School will ensure access to the footage and equipment is restricted and will make sure that students, staff, parents and visitors to School premises are aware that CCTV is in use by displaying clear signage in and around School premises.

Public Displays

- 38 If there is a display of students' work to be shown at a public venue (other than the school premises), parents will be informed and unless they have consent to publish fuller information, the School will only include the minimum of student identifiable information - for example "by John, Year 11".

School Plays

- 39 Data Protection law does not prevent parents/guardians from capturing their child's performance on camera or video as these instances would be for personal/family use only and therefore Data Protection law does not apply. Parents and carers should ensure that, where possible, photographs taken for family purposes do not include other people's children without their express consent.

Biometric Data

- 40 The School uses Biometric data for cashless catering. Biometric data is personal information and must be processed in accordance with Data Protection law. In line with the Protection of Freedoms Act 2012 the School will also ensure it has notified parents about their use of an automated biometric recognition system and obtained the required consent from at least one parent of each student.

Complaints

- 41 Complaints will be dealt with in accordance with the School's complaints policy. Complaints relating to information handling may also be made to the Information Commissioner's Office (the statutory authority).

Contacts

- 42 If you have any enquires in relation to this policy, please contact the Deputy Headteacher, who will also act as the contact point for any access requests.

Review

- 43 This policy will be reviewed and updated as necessary to reflect best practice or amendments made to Data Protection law.
