Dear Parents/Carers

19 June 2020

I'd like to congratulate all Year 10 and 12 students who have attended school this week. Their behaviour has been exemplary and they have shown an excellent attitude to learning. Across the week, we have had over 70% of Year 10 in school and 90% of Year 12. A number of teachers have been to see me to comment on how impressed they have been, well done all!

For all students, remote learning remains the main platform for schooling. We have asked teachers to create more personalised and interactive lessons where they can, and teachers will ask students to submit key pieces of work either on quiz style platforms, or via email or Class Charts.

From later today, you will find on our school website an overview of the work that has been set virtually during lockdown, including topics reviewed and new knowledge taught, identifying the work that needs to be submitted to teachers. This work will be important for students to try to complete, and it will help us to evaluate the curriculum for September. We hope that being able to see the key pieces of work at a glance, will enable students to catch up and complete what they can more easily. You will find this information

here: <https://www.alderbrookschool.co.uk/coronavirus-updates/distance-learning/> . We appreciate your support in helping students to find the right balance in their routines.

We fully understand that parents, carers and students are eager to know what school will look like from September. We will continue to update you as soon as possible as more information is released by the government. In the meantime, I'd like to remind all that, to support students further, on our website and below we have linked some high quality national resources which will support working from home. The resources are free to students and are aligned with course content.
