

Who should read this guide?

This guide is intended for use by parents, students and school staff registering SIMS Online Services accounts for use with the following SIMS Online Services: SIMS Parent (including SIMS Parent Lite), SIMS Student, Options Online, SIMS Engagement Portal and SIMS Activities Portal. School staff registering as administrators after the SIMS Online Service has been set up can also use this guide to register their account to use the SIMS Product Admin Portal.

SIMS Online Services allows you to sign in to your SIMS Online Service using an existing Third Party account rather than set up another account specifically for SIMS Parent or the other services. To register for SIMS Online Services products, you will need one of the following accounts: Microsoft (or Office 365), Google, Facebook, Twitter, Apple ID or SIMS ID¹.

Do not forget which account you registered with, since you will use this account every time you sign in to your SIMS Online Service.

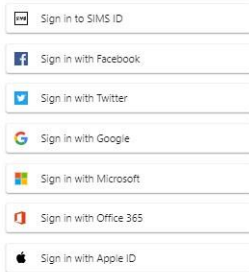

NOTES: Users with multiple roles at a school need to register only once. For example, users who are both a parent and a teacher at the same school should register as either a parent or a teacher but do not need to register as both. Once registered, all relevant parent and teacher information will be available.

Parents who have more than one child at a SIMS Parent school will only have to register once at that school. Once registered, all pupil/students at that school will be visible. Parents who have children at different SIMS Parent schools will need to register for each school and will only ever be able to view one school's SIMS Parent data at a time.

NOTE: Before completing the registration process, users should be signed out from all accounts to avoid accidentally registering with the wrong account, particularly if working on a shared computer. Alternatively, the registration process should be carried out in a private browser window.

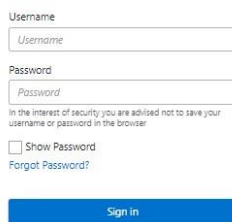

1. You will receive a registration email from noreply@sims.co.uk containing a unique invitation code. You will need this code to set up your SIMS Online Services account. If you have not yet received a registration email, please check your SPAM/Junk folder before contacting your school.
2. Click the **Accept Invitation** button in the email to be directed to the registration page.

5. On completion of account authentication, you will be asked for an **Invitation Code**.
