

Living World Geography questions revision

Instructions:

1. Choose the topic you feel you know the least
2. Find a question you don't know the answer to within that topic and write it in your book
3. Read the pages of the textbook first
4. Then write the question out fully in your book.
5. Time yourself a minute per mark eg. 6 marks should be written in 6 minutes. If you haven't finished in 6 minutes then change you pen colour and complete. This gets you used to the timings which is an exam skill

The Living world exam practise questions

1. Read p 58-59 - Explain how plants may have adapted to survive in a tropical rainforest. (6 marks)
2. Read p52-53 - Explain and describe the features of a small scale ecosystem in the UK. (4 marks)
3. Read p 86-87 - Using examples, explain how different strategies can help reduce environmental damage in cold environments. (9 Marks)
4. Read p 84-85 - Outline three possible environmental impacts of economic development on cold environments. (6 marks)
5. Read p 56-57 - Outline the differences between the characteristics of the polar and tundra biome.(3 marks)
6. Read p 54-55 - Outline one possible natural reason for a change in an ecosystem. (3 marks)
7. Read p 78-79 - Explain how plants have adapted to survive in cold environments. (4 marks)
8. Read p 66-68 - Explain two benefits of international cooperation in sustainably managing tropical rainforests. (4 marks)
9. Read p60-61 - Give reasons for developments in tropical rainforests (6 marks)
10. Read p 62-63 - Explain two possible effects from deforestation. (4 marks)
11. Read p 82-83 - Explain how a cold environment can offer challenges for development. (6 marks)
12. Read p 78-79 - Explain how animals have adapted to survive in cold environments. (4 marks)
13. Read p 80-81 - Explain how a cold environment can offer opportunities for development. (6 marks)
14. Read p 66-68 - Account for how education and conservation can help manage tropical rainforests sustainably. (4 marks)
