

# THE YEAR 11 CURRICULUM@ ALDERBROOK

2024 - 25

'Education is the most powerful weapon which you can use to change the world'.

Nelson Mandela

AMBITION | BRAVERY | KINDNESS

#### **Ambition for our Year 11 Curriculum:**

Year 11 marks the final year of Key Stage 4. The emphasis throughout school life on a student's 'approach to learning', should come into fruition this year, as students continue to work towards their examination courses with established study habits.

There is an increasing emphasis on fine tuning revision techniques which have been nurtured from Year 7 and preparing for tests and final exams with a well-planned personal timetable. Mock examinations, which Year 11s sit twice during the year, provide one final opportunity for students to practise sitting formal examinations in a school hall environment before they take their examinations.

The **PSHE** programme provides important balance for our Year 11s, with an age appropriate focus on aspects of 'Health and Well-Being', 'Relationships and Sex Education' and 'Living in the Wider World'. Part of their programme includes a motivational and goal setting sessions by external professionals.

Continuing to ensure that students understand the key vocabulary for their subjects is important, particularly paying attention to the command words in examination questions. Students should take time to make sure they learn and understand any new subject vocabulary. All Year 11 students will participate in our reading initiative 'Uniquely Portable Magic' during form time

#### **Bravery:**

Year 11 is a key age where mental and physical well-being are a focus, along with personal organisation and an awareness of personal strengths and characteristics. The programme of assemblies, PSHE lessons, and Life Ready Days in Year 11 encourage this growth, whilst supporting students to make the right decisions and stay safe. A full range of revision and after school support sessions is programmed for this year group, though students are encouraged to maintain their hobbies and activities to help them find balance and relaxation as they progress through the year.

#### **Kindness:**

Year 11s continue to have a form tutor and a Year 11 tutor group they will meet each day. This familiarity will be a support for students this year. The form tutor will be key in advising students how to manage their time and discuss any anxieties. The Head of Year 11 is Miss L Usefnia and the Pastoral Manager for Year 11 is Mrs S Wedgbury.

#### **Business**

#### 'Success usually comes to those who are too busy to be looking for it.' Henry David Thoreau

Business in Year 11 seeks to revisit knowledge taught in Year 10 and build on this, whilst also developing essential skills of application, analysis, and evaluation to support preparation for the exams. Students are also encouraged to link their learning to what is going on in the economy and business world. By examining and thinking critically about the real-life business situations students will gain an insight into different context which will help them to develop their employability skills for the future

#### **Creative iMedia**

#### 'Technology is anything that wasn't around when you were born.' Alan Kay

Creative iMedia in Year 10 builds upon the theory and skills developed in Year 9. Students will learn how to plan, create, edit and evaluate graphical products and digital games. They will work from a client brief to create a visual identity that meets the user's requirements, gaining industry-standard software skills along the way.

#### **Dance BTEC Tech Award**

#### Make each day your masterpiece' John Wooden

Year 10 provided dancers with the skills and knowledge of studying professional repertoire and develop their understanding about how professional dance is made. Year 11 requires students to continue their appreciation of professional repertoire as well as create their own masterpiece in response to a vocational performing arts commission. The scheme of assessment prepares students well for Key Stage 5 dance due to the rigour of the practical work and the requirement to critically appraise professional work.

	Autumn Term	Spring Term	Summer Term 1	Summer Term 2	
Component Knowledge	Component 2: Developing Skills and Techniques in Dance. Students will train their bodies to accomplish challenging professional repertoire in relation to a theme. Students will know which exercises help to develop their physical skills, track the process through video and written logs and write an evaluation of their performance. Component 2: Developing Skills and Techniques in Dance.	Component 3: Responding to a brief. Students will work as a small company to produce a workshop performance in response to a vocational scenario. Students will need to write up their research and planning of an idea. Students will need to identify how their dance skills develop throughout the process. Students will show that they can evaluate their rehearsal process and performance work.	Training for Key Stage 5 dance	Dance A-level workshop	
Assessments and End Points	Controlled Assessment video reel, skills' log and evaluation.	External assessment of three written tasks and a workshop performance.			
Important literacy and numeracy developed this year		d apply this to written parts of the course and in discussic clearly communicated viewpoints. <b>Numeracy:</b> connection een production features.			
Wider skills and enrichment	Ability to be reflective about own beliefs and perspective on life, reveal their creativity when developing ideas for a performance, self-appraisal, evaluation, teamwork leadership, research, presentation, communication and problem solving and a sense of enjoyment and fascination in learning about themselves, others and the work around them. Social, political and cultural movements impacting on dance. Study of professional works allow for personal viewpoints and understanding the critical appreciation of others. Dancers show a willingness to reflect on their experiences. Use imagination and creativity in their choreography work.				
How you can help your child at home	Listen to their creative ideas and help find resources wh	ich may support their research work.			

#### **Design & Technology**

#### "Many things difficult to design prove easy to performance' Samuel Johnson

Design and Technology in Year 11 seeks to revisit knowledge taught in Year 10 and build upon this, to develop a product based around a given theme from the exam board. Students will have a clear target market, practical developments and analysis throughout their coursework resulting in an appropriate viable solution and evaluation. Students will also be preparing for their exam. Students are encouraged to link their learning to what is going on in the economy and real world. Students will be continuing developing skills that will help them to develop their employability skills for the future

	Autumn Term 1	Autumn Term 2	Spring Term 1	Spring Term 2	Summer Term 1	Summer Term 2	
Component Knowledge	Develop a series of design ideas. #### Geography

#### "Geography holds the key to our future" Michael Palin

Students studying GSCE Geography in Year 11 will continue to build on all their geographical knowledge and skills developed in Year 9 and Year 10 to prepare themselves for their final GCSE exam. Students will continue to develop their exam technique in Year 11, to allow them to achieve maximum marks in the exam. The skills that students will learn whilst studying Geography will allow them to have a greater awareness of the world around them and how they can have a positive impact upon it.

#### **GCSE Music**

'Music awakens the soul' Lailah Gifty Akita

Students will build on their previous skills by using them to complete the topics below such as teamwork, collaboration, decision making, perseverance, managing others, confidence

	Autumn Term 1	Autumn Term 2	Spring Term 1	Spring Term 2	Summer Term 1	Summer Term 2
Component Knowledge	World Music and Ensemble Performance -Students will learn about World Music and complete practice questions on thisStudents will record for their ensemble piece for coursework.	Composition 2 and Film Music -Students will recap their knowledge about Film Music and complete practice questions on thisStudents will submit their composition for coursework.	Concerto Through Time and Mock Prep -Students will recap their knowledge about the Concerto through time and complete practice questions on this -Students will recap all units to date in order to prepare for the mock examination.	Solo performance recording and Conventions of Pop -Students will recap their learning on Conventions of Pop and complete practice questions on thisStudents will submit their solo performance as part of their coursework.	Exam Prep -Students will recap all of knowledge on the following topics in preparation for the exam 1-Film Music 2-Concerto Through Time 3-Rhythms of the World. 4-Conventions of Pop.	Study Leave
Assessments and End Points	Recording of their ensemble piece. World Music past paper questions.	Submission of composition 2. Film Music past paper questions.	Concerto Through Time past paper questions. Mock exam.	Recording of solo piece. Conventions of Pop past paper questions.	Completion of past paper questions.	

Alderbrook	Year 11 Curriculum
Important literacy and numeracy developed this year	Students are assessed for the grammar and spelling. This is checked throughout their coursework to ensure that it is to a high standard.  Students will complete a series of past papers. They will be assessed on their exam techniques and will learn how to answer exam questions effectively. These include listening questions as well as Music Theory questions.
Wider skills and enrichment	Students are encouraged to perform both in and out of lessons. Ideally, they are taking lessons on their instrument and/or are part of a group/band. This will help with their instrumental and musicianship skills. They are encouraged to take part in extra-curricular activities as well as attending the many trips the music department has on offer.
How you can help your child at home	Students at home are encouraged to rehearse their instrument throughout the year, whether or not performance is being studied in lesson. Regular practice is beneficial and is proven to improve performance skills. Encouragement to hand work in on time is also vital.

#### P.E. Core

"The mind is the limit. As long as the mind can envision the fact that you can do something, you can do it, as long as you really believe 100 percent."- Arnold Schwarzenegger

Students will tackle complex and demanding physical activities. They will get involved in a range of activities that develops personal fitness and promotes an active, healthy lifestyle.
